Tools

Required	Desirable
Curved edge tile nippers	Both curved & straight edged tile nippers
Grouting tool (or use something from around the house)	Boat Grouter

Guidelines required for "Turkey" mosaic design.

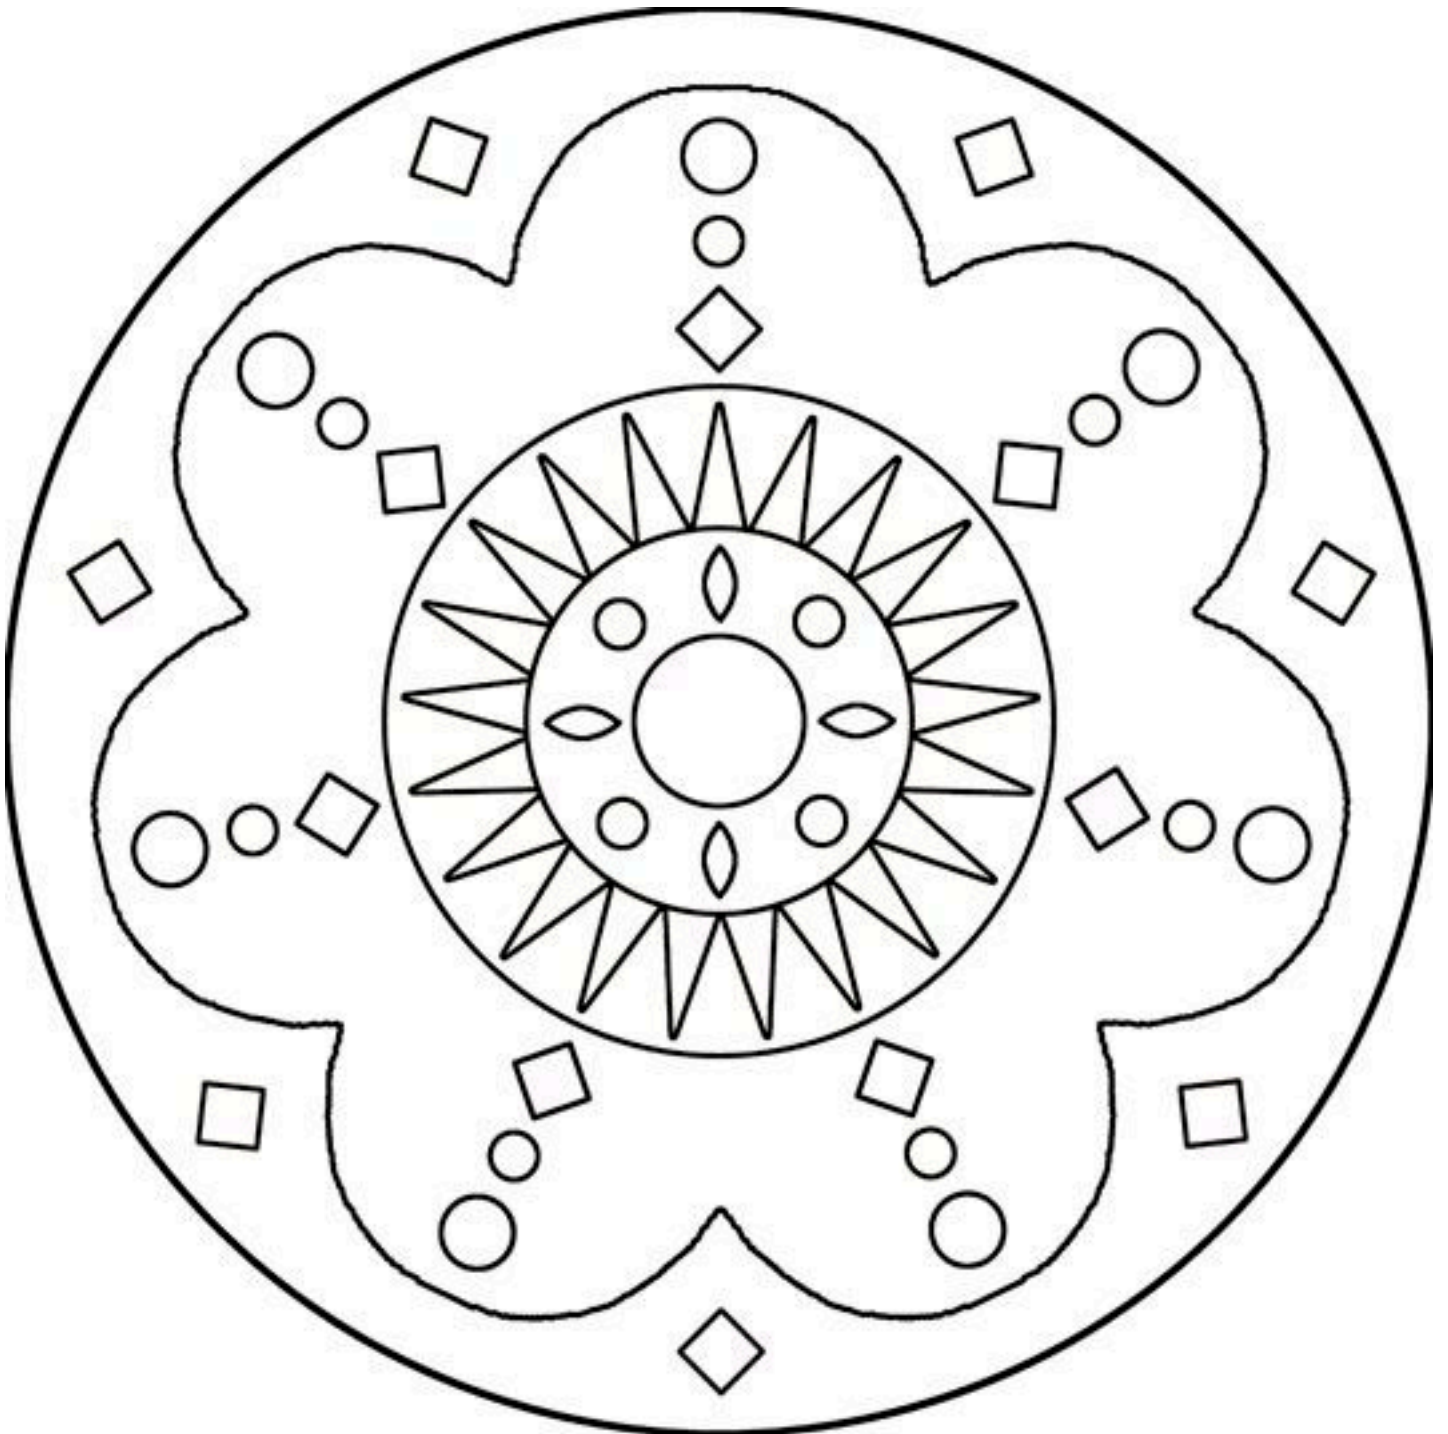

1. Draw red lines as shown with a protractor & a compass
2. Carefully cut your templates out with scissors or a stanley knife. Cut *outside* the lines edging the template.
3. Join the templates together with sticky tape or glue
4. Line up the template on the guidelines as shown

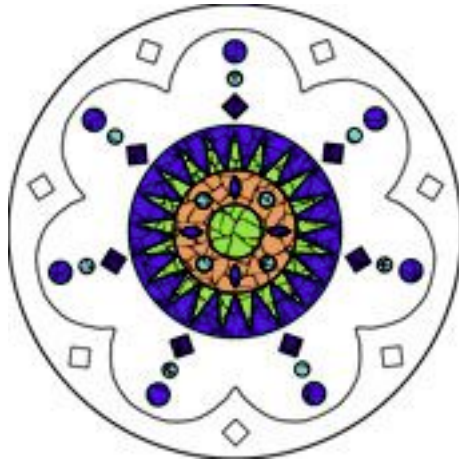

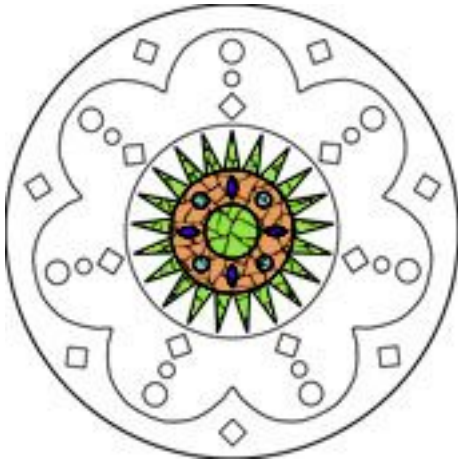

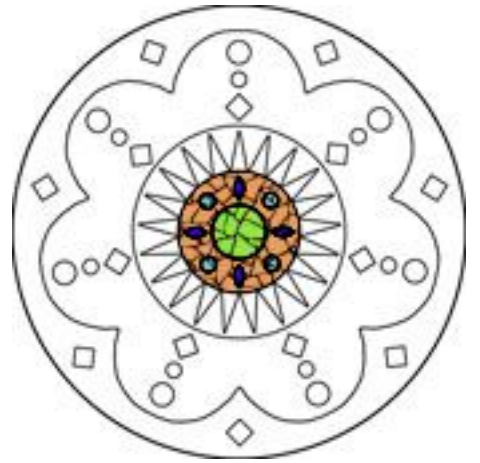

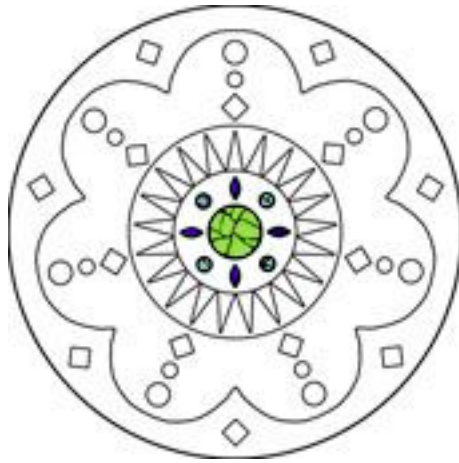

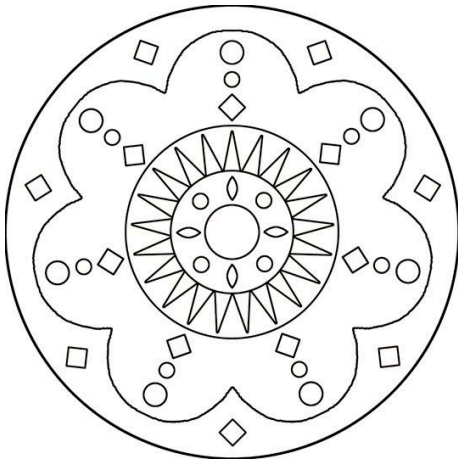

Alternative methods of transferring the design

The drawing below could be taken to a photocopy or print shop and enlarged to your desired size. You can then use carbon paper to trace the design directly onto your backing board.

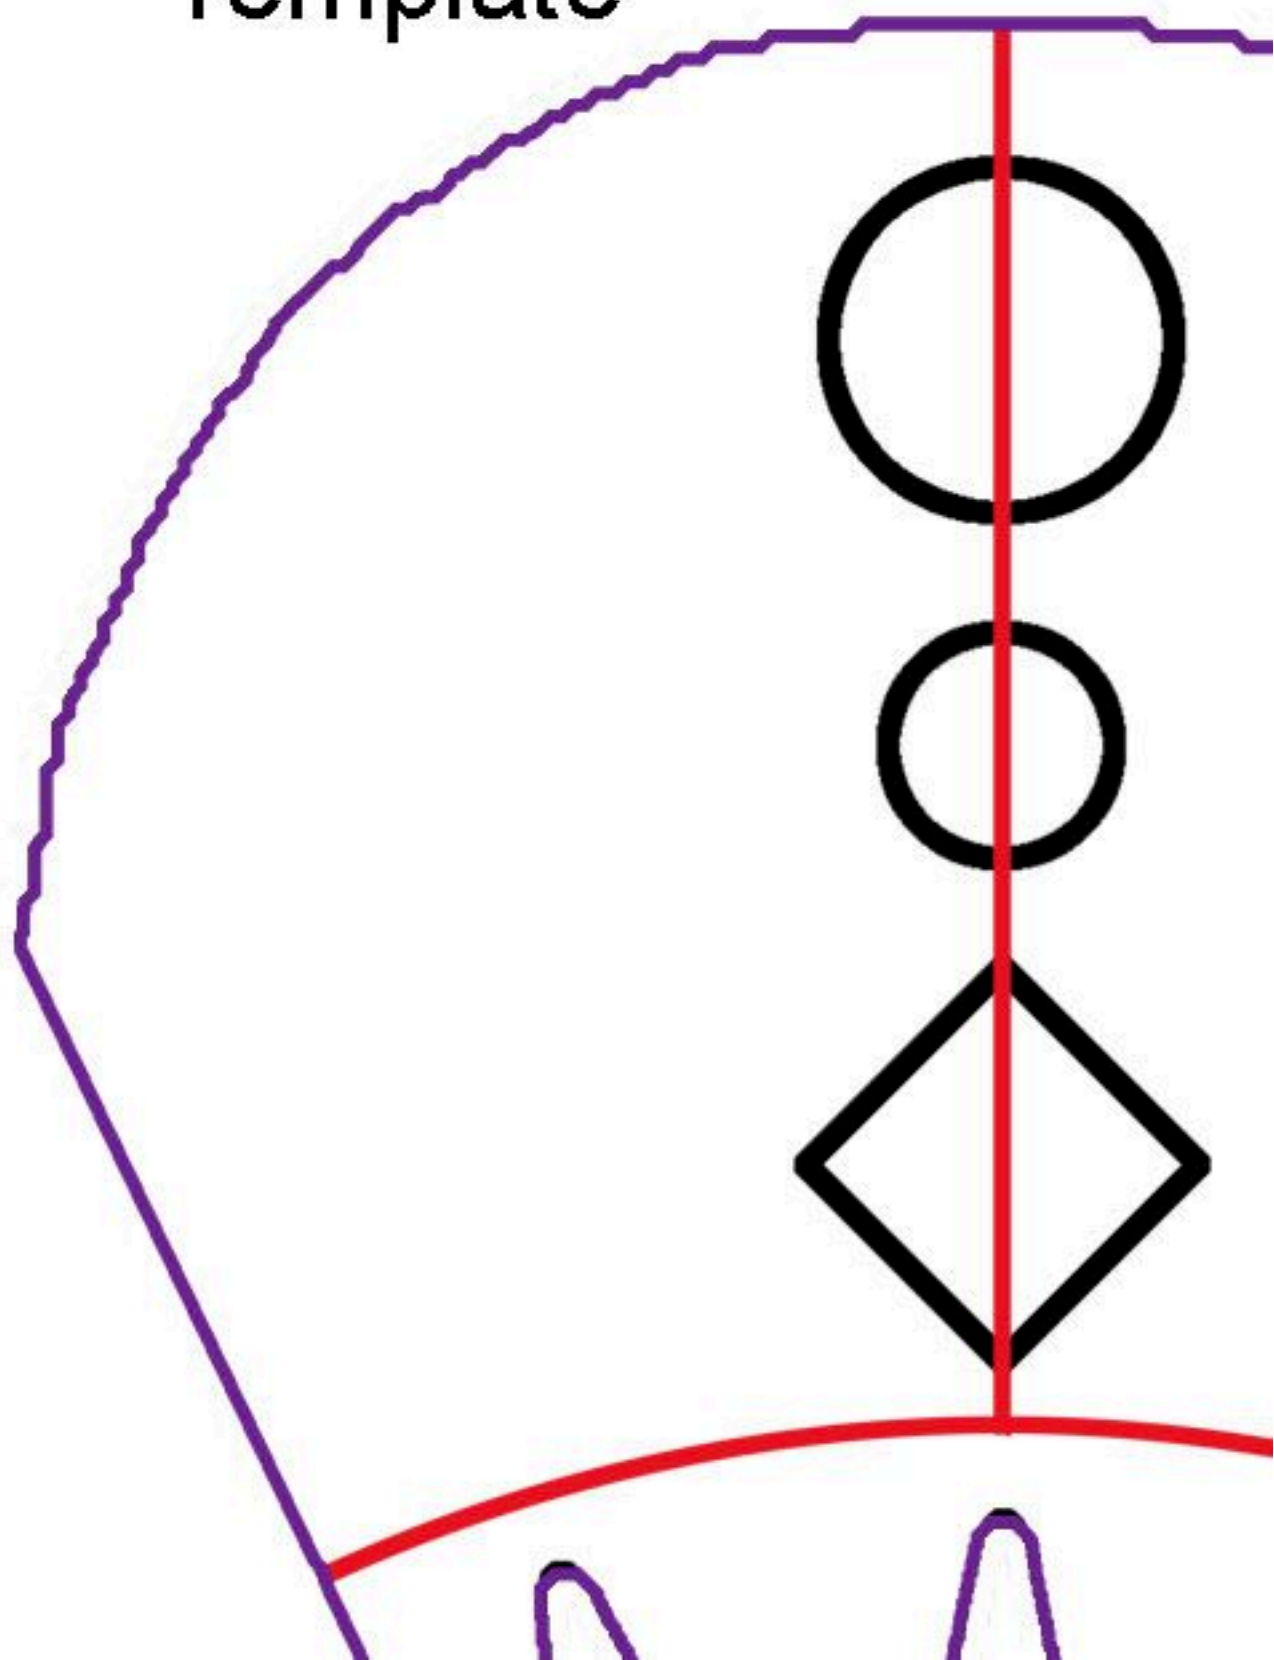

You could also draw a grid on the design and a corresponding grid onto your backing board and draw the lines in yourself

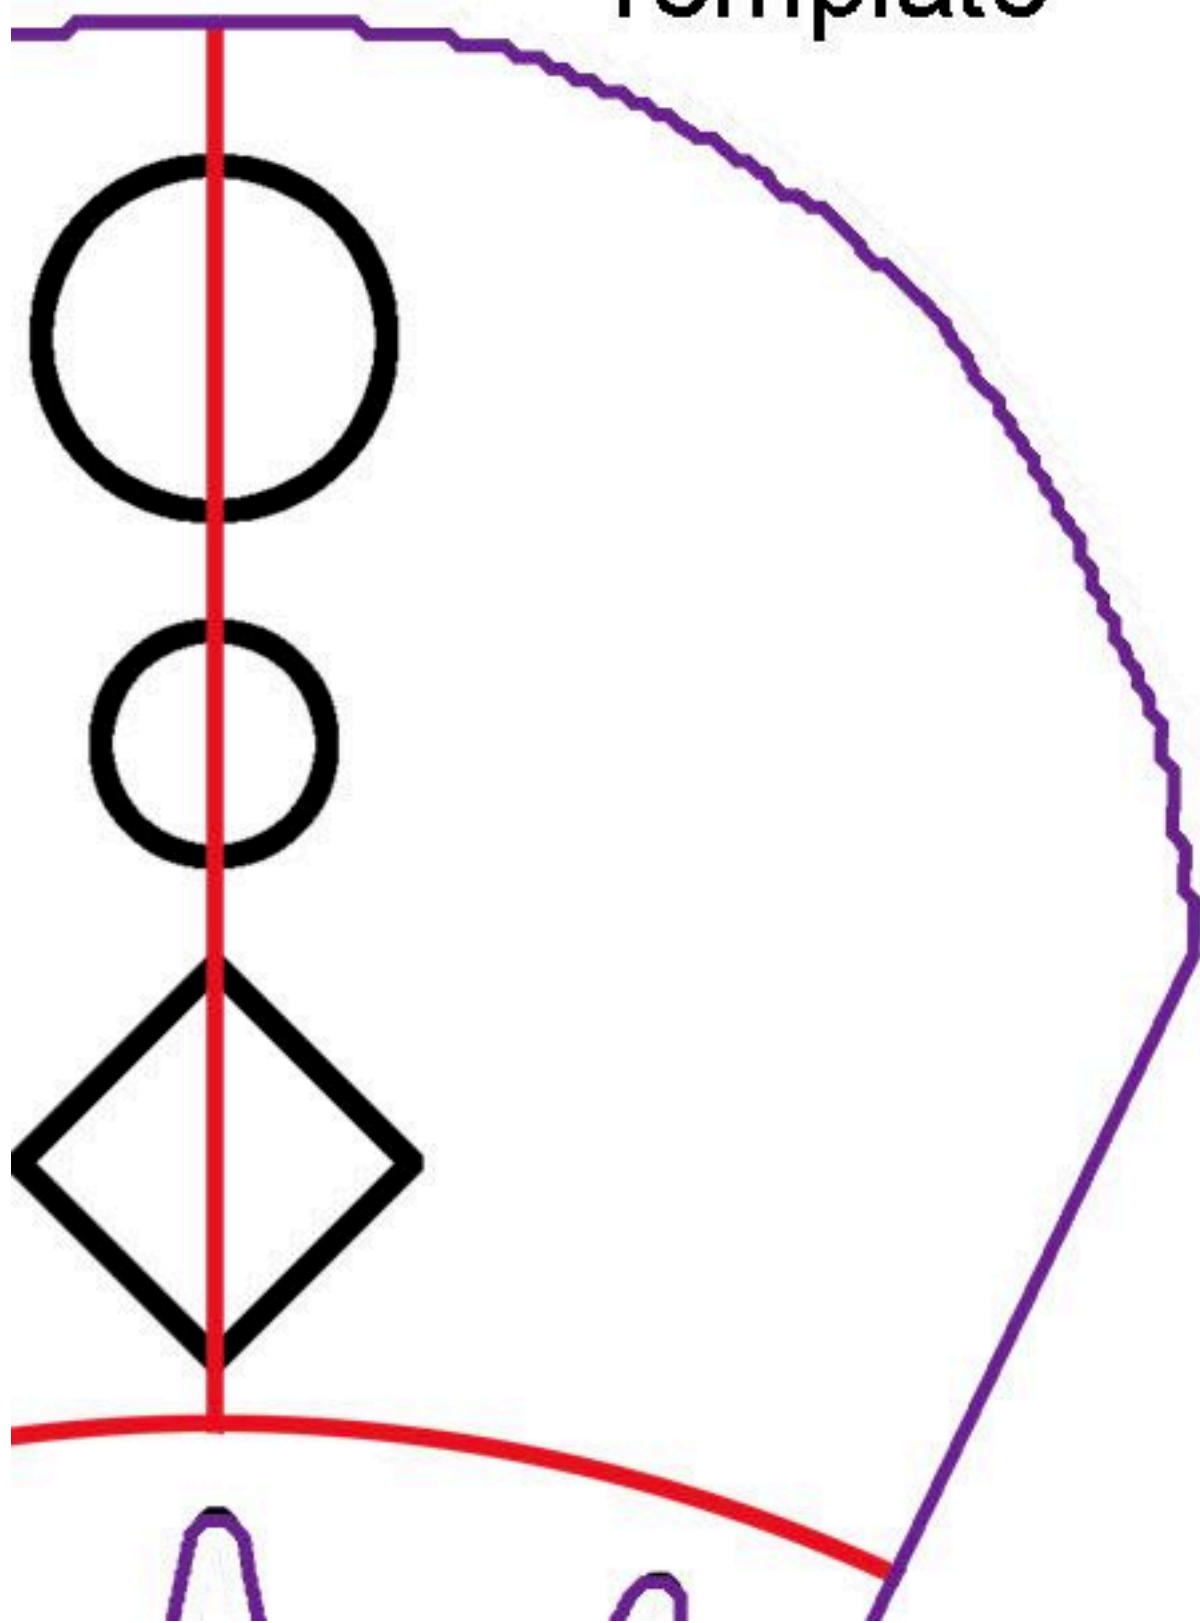

Suggested laying order
