Black	10 x10	8	Tile Glue	1 kg
Navy	10 x10	3	Tile grout	1 kg
Aqua	10 x10	5	Sealant	250ml
			Plywood Base 15mm min. thickness, 40cm diam.	
			2 x 16mm screws & wire	

Tools

Required	Desirable
Curved edge tile nippers	Both curved & straight edged tile nippers
Grouting tool (or use something from around the house)	Boat Grouter

Guidelines required for "Turquoise" mosaic design.

1. Draw red lines as shown with a protractor & a compass
2. Carefully cut your template out with scissors or a stanley knife. Cut *inside* the lines edging the template.
3. Line up the diamond template on the guidelines as shown - you can use it to trace the sections of diamond on the edge too.

Alternative methods of transferring the design

The drawing below could be taken to a photocopy or print shop and enlarged to your desired size. You can then use carbon paper to trace the design directly onto your backing board.

You could also draw a grid on the design and a corresponding grid onto your backing board and draw the lines in yourself
